Professional Summary

Seasoned web developer with over 5 years of experience developing, and maintaining scalable PHP-based applications. Expert in Laravel & Livewire, having delivered 40+ projects within 2 years. Demonstrated ability to manage full-time roles and remote contracts, optimizing performance, integrating modern front-end frameworks, and ensuring robust security.

Professional Experience

Senior PHP Developer

ITBHA International Ltd. Pvt., Kathmandu, Nepal
January 2020 – Present

- Architected, developed, and maintained high-performance web applications using PHP, Laravel, Livewire, and Vue.js.
- Delivered 35+ client projects end to end, leveraging RESTful APIs and integrating third-party services (payment gateways, streaming, authentication).
- Optimized database queries, reducing deployment times by 60%.
- Enforced web security best practices and performance standards, achieving a 50% reduction in page load times.
- Collaborated with cross-functional teams to document workflows, train staff, and streamline development processes.

Remote Laravel & React Developer (Contract)

Digital.Enterprises (Remote)
September 2024 – April 4, 2025

- Managed end-to-end handover and technical operations for digital.enterprises and related subdomains.
- Configured DNS & domain records, Google Workspace, Microsoft 365, and group email accounts across multiple domains.
- Developed Laravel livewire backends for admin dashboards (admin.mbk.global) and (admin.t3.fitness) event registration systems, integrating SEO, Insight Tag, and affiliate tools.
- Converted Figma designs into responsive HTML/CSS and Bootstrap components for homepage, product, and sign-up pages.

- Enhanced Shopify platforms with multilingual support, product detail updates, and chat integrations; resolved affiliate and mail delivery issues.
- Built a React application with embedded forms and API integrations; progressed Framer site to 90% completion, pending Signature.ai and payment gateway integration.
- Created documentation on Laravel usage, team roles, and support procedures; handled domain verification and troubleshooting across Shopify, Microsoft, and Spaceship hosting.
